F2. Rezoning Request – 11/10 #2

FINDINGS OF FACT:

Property Owner: Marty and Myra Judd
Location: 2512 DeVault Bridge Road, Piney Flats
Civil district: 257 Lakewind Drive North, Piney Flats
Parcel ID: Tax Map 109, Parcel 49.00
Water District: Tri-City/Sullivan/Blountville Utility District
Sewer or Septic: no public sewer – would have to be soil tested for on-site septic
Growth Boundary: Planning Growth Area of the county
Existing Zoning: A-1, General Agricultural/Single-Family Residential
Proposed Zoning: AR, Light Recreational
Intended Use: Commercial Campground
Surrounding Land Use: Single Family Residential
Surrounding Zoning: A-1 and R-1

Neighborhood Opposition/Support: Several residents called the department expressing their opposition to this request.

Staff Field Notes and General Comments:
- This request is to consider the rezoning of approximately 25 acres of vacant property along Boone Lake.
- The site has is bound by two small coves and the flood level of the lake.
- The site is limited to about 50 feet of county road frontage, which was not passable at this time.
- The site is surrounded by single-family residential.
- Staff has received numerous calls from neighbors who are opposed to this rezoning request.
- The Boone Lake Association has also called to voice their concerns, stating that the lake has enough campgrounds and mobile home parks on the lake already.
- Staff cannot recommend for this rezoning request as it would be out of character with the established single-family, low-density residential land uses, would be considered a spot zone as there are no other recreational or commercial zones in the area, and the limited road frontage would not be ideal for ingress and egress for the allowable density of campers, this site could accommodate if rezoned. Ideally, the site should have more than one way in for this density (gross amount would be 375 sites with 15 per acre X 25 acres).

Discussion at Planning Commission:
- Staff read her findings and recommendation. Discussion followed.
- The chairman asked if there was any opposition to this request and if so, anyone wishing to speak can do so one at a time.
- Nathan Penley, of 250 DeVault Bridge Road, submitted a petition of over 70 residents who had signed stating their objections to this rezoning request. He stated that all of the folks who had signed lived within one mile of the site in question. He read a summary of the objections stating that the existing county road was too narrow, specifically at the bridge, to handle large campers, RVs and boat trailers. He stated that he personally witnessed Mr. Judd having difficulty with his equipment on the road and getting in and out of his property as the road frontage is limited. They were concerned that the curvy and narrow road would be a potential risk for campers and others stating that the road was not designed to handle such. He also stated that they believed a campground could bring down the property values of the existing residents and homeowners. Lastly he expressed the concerns of the community over the environmental impact this campground development would have on the lake and cove area, specifically the erosion to the banks and narrow pass of this particular cove.
- Discussion followed regarding the approval process from TVA for any community boat dock.
• Mr. Marty Judd followed by stating that he has already met with folks from TVA. He is hoping for at least 100 campsites with one dock for every two campsites. He stated that he had a soil scientist working on the septic suitability study. He stated that he was planning on paving the entrance for the first 30 or more feet and had received a copy of the county’s campground regulations. He stated the planning on following those zoning regulations if he was rezoned.

• Roy Settle asked Mr. Judd if he planned on grading out all of the trees along the shoreline, as that might cause more erosion problems.

• Mr. Judd stated that he had already graded out all of the smaller trees but plans on leaving the larger trees.

• Discussion followed regarding the single lane bridge, sight visibility coming out of his property, and the accommodations in the region to handle the boat launching and fueling.

• Mr. Carl Terrell of 3270 Rocky Springs Road came forward and spoke in opposition to this request. He stated that he had lived directly across this narrow cove from Mr. Judd’s property, since 1968. If the applicant gets approval to put in 50 boat slips along this cove that it will be an impassable cove and will pose safety concerns on the lake. He stated that Devault Bridge Road was much too narrow to accommodate motor homes and boat trailers.

• James Penley, 2237 DeVault Bridge Road, also came forward and spoke in opposition. He stated that he has witnessed many wrecks in front of his house as the road is getting more and more traffic on it. He stated that this cove is so narrow that a skier cannot turn – the boat has to slow down to make the turn, sometimes using an ore. By adding a community boat slip, the cove will not be accessible or passable at all, as the campground users will then have control of the cove.

• Roy Settle asked the audience to raise their hand if they were in opposition and who lived within ½ mile of this site. Members counted as many as 30 folks present who raised their hands in opposition.

• The chairman asked if anyone was present who was in support of this request.

• Sherry Lewis came forward and read a letter of support from her husband, Allen, who could not attend the meeting. She stated that she lives next door to Mr. Judd on Lakewind Drive and was in favor of this request. She stated that she would like to have a spot in the campground so that she can have access to the lake.

• Joe Martino came forward. He stated that he too lives on Lakewind Drive. He stated that the lake is a resource for all to enjoy but that most of the existing campgrounds on the lake are full. He stated that if the infrastructure is put in properly than he was for the campground so the community could have access and be able to enjoy the lake.

• Roy Settle asked the applicant how long the docks would be if approved.

• Mr. Judd stated that the docks would be 10 feet by 10 feet and would all be uniform. He stated that he wants a private boat ramp as well. He plans on putting in a shower house and 3 log rental cabins with stone work. He wants it to look nice.

• Gordon Peterson, chairman, reminded the members and public that this meeting was to consider the rezoning request only and that if the County Commission approved the rezoning to AR, then they would consider the details of the site plan. He asked the public if there were any additional comments.

• James Penley came forward again and said that their primary concerns were on safety for the children, there were no restaurants or service stations to support this development, the property was all slate, which cannot support that many septic systems, and the lack of roads and infrastructure to support this request.

• Mark Webb stated that the Planning Commission did not have any control over the boat traffic nor septic system permitting.

• John Crawford questioned if this would be considered spot zoning.

• Staff confirmed that spot zoning is defined as giving a rezoning classification that would benefit the applicant at the detriment of the surrounding existing landowners, in addition to being in contrast to the land use plan. She also explained that the other existing campgrounds along the lake were developed prior to zoning regulations and are considered legal but non-conforming (i.e. “grandfathered in”) as they do not conform to any standards or zoning district.

• Eddie Ramsey, 2283 DeVault Bridge Road, also spoke in opposition. He was primarily concerned with the safety issues this intense development would create. The cove is so narrow that now in December, it only has about 10 feet wide of water.

• John Crawford stated that while taking all of this discussion into consideration, he felt there might be some legitimist concerns but made a motion to forward a favorable recommendation for this request.

• Buddy King seconded the motion and the vote in favor passed with 5 yes (Peterson, Crawford, King, Webb, McIntire) and 2 no (Settle, Ivester) and 2 absent (Baker, Dutton).

To the Honorable Steve M. Godsey, Mayor of Sullivan County, and the Board of Sullivan County Commissioners meeting in Regular Session this 20th day of September 2010.

RESOLUTION Regarding Election Redistricting In Tennessee Counties

WHEREAS, the Tennessee Constitution in Article VII, Section 1 provides for the election of a county legislative body in each county which should equally represent all areas of the county. The county legislative body shall be composed of representatives from districts in the county as drawn by the county legislative body pursuant to statutes enacted by the General Assembly. Districts shall be reapportioned at least every ten (10) years based upon the most recent federal census; and

Dear Commissioner Hood,

This letter is directed to you on behalf of a number of your neighbors and constituents in your district for the purpose of asking you to represent the desires of the individuals listed on the attached petition. The petition is self-explanatory but asks you to act on our behalf to facilitate the removal of three No Parking signs placed on the 700 block of Lebanon Rd. The signs were requested by residents who reside on streets other than Lebanon Road. We assume their motivation to ask the county to install them was to cure a situation they publicly called “unsafe” but privately called “tacky”. I say “assume” because the residents residing on Lebanon Road were not contacted by County personnel nor the “neighbors” who requested the installation. Taking away from one taxpayer privileges provided to other taxpayers without explanation is not the way taxpayers expect to be treated.

The signs prohibit residents from parking on the county right of way and therefore restrict the visitation of church members, relatives, maintenance personnel, and others to the homes of the residents. Any time said residents even temporarily bend the rules to unload something to carry into their house or otherwise use the county right of way, the Sheriff is called and responds to investigate. Every such visit by the deputies results in a reasonable explanation by the offender and instructions by the deputies to park on the streets nearby. These instructions are unreasonable but followed by law enforcement. That too becomes an issue with the other neighbors. From the Hwy. 36/Lebanon Rd. intersection to I-26 there are numerous places along the roadway where citizens can pull onto the right of way. Aside from the 700 block of Lebanon Road there is only one other spot where signs prevent parking. That location is at the corner of Eastern Star Rd. and Fordtown Rd. where large tractor trailers might be prone to pull onto the side.

The situation that motivated the installation of the signs no longer exists and the signs are therefore inappropriate. The signs should be removed and we solicit your assistance in seeing that this request is appropriately considered and acted on as soon as possible. We apologize for taking your time, that of your fellow commissioners and others who work to do the right thing. You have so many important issues to address but without your action we’re afraid that we will be governed by these signs for perpetuity.

Baxter, thank you for visiting the site and understanding why this issue is being brought to you for handling.

Sincerely,

Betty and Charlie Dotson on behalf of petitioners
PETITION FOR ACTION
November 13, 2010

We, the undersigned residents of Lebanon Road in Colonial Heights, petition you to approve the removal of the 3 "No Parking" Signs located in the block of Lebanon Road as indicated on the attached map. Because of these signs, we are unable to have visitors park in front of our homes on the county right of way. These No Parking signs are the only ones on the entire length of Lebanon Road beginning at Highway 36 and going to I-26. The signs were installed at the request of a small group of residents located on another street based on a temporary condition that no longer exists. The first time, we parked temporarily across the street to unload a lawn mower, the Sullivan County Sheriff's office was called. They came to inform us that we would have to move. When we explained the situation to the Officer, he informed us to park on the street across from us and we have been doing that. As taxpayers we can exercise our right to park on another street half way around the block. The county is depriving us as residents of our right to park in available space when the complaining neighbors have the right to use the space in front of their own homes. However, now that we have the Holidays coming, our families, visiting church members, out of town visitors and others will have no place to park. Please correct this inconsistency in the treatment of tax paying citizens. We would appreciate your removing these signs.
