2. RESOLUTION IN RE:

RURAL SCHOOL
BOND

BE IT RESOLVED THAT WHEREAS, an additional \$3,445,000 is needed to complete Sullivan South High School, and,

WHEREAS, the City of Kingsport is in the process of annexing by ordinance the area in which Sullivan South High School is located, and,

WHEREAS, the City of Kingsport will assume the bonded indebtedness on the Sullivan South High School if and when the area is in fact annexed.

WHEREAS, TCA 40-715 provides "In the event that there exists any incorporated city or town or special school district within said county which operates its schools independently of such county, the quarterly county court, in its discretion, may provide that such bonds shall be payable from taxes levied only upon that portion of taxable property within said county lying outside the territorial limits of such incorporated cities or towns or special school districts so independently operating their schools, and taxes sufficient to pay principle of and interest on such bonds shall be so levied upon such portion of the taxable property lying outside the territorial limits of such incorporated cities or towns or special school districts. In the event that the bonds being issued are payable from a tax levied only on that portion of the taxable property within said county lying outside the territorial limits of incorporated cities or towns, or special school districts which operate their own schools independently of said county, then no part of the proceeds of such bond issue shall be paid over to any such city or town or school district or districts."

WHEREAS, the use of this statute in issuing bonds to complete the building would result in a savings of \$1,900,000 in bonds and would make the transfer of liability for the bonded debt to the City of Kingsport much more simple to complete.

*A copy of the formal resolution is attached to the original resolution.

THEREFORE, BE IT RESOLVED THAT the Sullivan County Quarterly Court approve the additional \$3,445,000 in Rural School Bonds under TCA 49-715 with the provision that the principle and interest on said bonds be payable from taxes levied only upon that portion of taxable property outside the cities independently operating their schools and that no part of the proceeds of the bond issue shall be paid over to those cities.

BE IT FURTHER RESOLVED THAT the passing of this resolution is dependent on a resolution by the Board of Mayor and Aldermen making paragraph II - Ownership - of an agreement dated January 1978 drawn by the Boards of Education of Sullivan County and the City of Kingsport binding on the City of Kingsport to honor the agreement to assume the bonded indebtedness. Honorable Lon V. Boyd and Members of the Sullivan County Quarterly Court
In Session July 19, 1978
Blountville, Tennessee 37617

Ladies and Gentlemen:

Although the regular school is out of session, this time of year is an especially busy time for the central office staff and maintenance department. Curricular planning, interviewing and selecting teachers, initiation of new programs, purchasing textbooks and supplies, etc., are both necessary and vital for the maintenance and improvement of our instructional program.

The new structure at Blountville Elementary and Blountville Jr. High has been completed. This structure includes a cafegymtorium and two kindergarten classrooms. Renovation has been started at the Blountville Jr. High School.

The renovation of Gunnings school has been completed. The school will serve the multiple handicapped in Sullivan County. The cost of the renovation including the cost of the special equipment was \$300,000. It would have cost at least \$1,000,000 to build a new school with the same floor space.

Gunnings school will open its doors on Monday, July 10, 1978, to provide a four-weeks summer program for the twelve students from Sullivan County and Kingsport who will transfer from Dawn of Hope to Gunnings. The summer program will be staffed by two certified teachers, two bus driver/aides (who are also certified teachers) and two volunteer aides. Classes will be held daily from 9 a.m. to 2:30 p.m. Transportation and a hot lunch will be provided at no cost to the students. The summer program will offer individual and group activities to increase the student's self-help skills; outdoor games, art and music to increase their social skills.

This fall Gunnings school will be ready to open full time to approximately sixty children with multiple handicaps. Transportation will be provided for all children. A hot lunch will be satellited from Central High School. The students will receive training in self-help skills, motor activities, and social skills through the use of specially purchased equipment, games, etc., designed for these children.

Federal Project ESEA IV B, 78-01, was approved for the purchase of nonprint materials for the libraries and instructional equipment for the utilization of the nonprint materials. Both materials and equipment, requested by teachers to supplement classroom instruction, have been ordered and are now being received. They will be readily available for teachers when school opens.

An ESEA, Title I, Federal Project has been approved to provide summer school for children in grades 1-8. Classes will be held from June 12 to July 21 in six locations: Lynn Garden, Brookside, Sullivan, Blountville, Bluff City, and Valley Pike. Classes are offered in reading, math, social studies, and science. Six hundred and fifty-three students have enrolled in this program.

Centralized purchasing in the school cafeterias has taken place during the 1977-78 school year. The resulting savings has been significant; with a total of over 2,525,000 meals served, \$.0125 per plate less cost than the preceding year has netted over \$31,000 gain. The total cost per meal remained almost the same as last year's cost of \$.77 per meal, even with the 9% increase in labor costs. There is no anticipated need at this time to increase the price of the meal to the child; this conclusion is based on the results of this year's program. Several problems in purchasing and delivering have occurred that will continue to require attention and serious thought.

The newly constructed Blountville cafeteria will replace two very obsolete kitchens at the elementary and junior high schools. The single unit should produce over 1,250 meals daily in the future. The large multipurpose dining space will serve as a play area, general meeting area, and school assembly area. The spaces vacated by the two old kitchen-dining areas are being renovated for much-needed classrooms.

July 7, 1978

0035

Participation in the school lunch program has increased by over 1,500 meals daily resulting in more than 2,525,000 meals served this past year. Study of the breakfast program is being conducted; some pilot programs may be implemented this year. With continued economy being practiced in purchasing, federal government financial support, and commodity availability, there should remain a very stable food service program in the schools.

You will also find enclosed a copy of the budget figures of the Sullivan County Board of Education. This item is enclosed for all magistrates who do not serve on the Budget and Education Committees. Each member of these two committees received a copy of the Sullivan County Board of Education's budget.

Very truly yours,

Paul Nelson, Superintendent
Sullivan County Schools

TO: THE HONORABLE JUDGE AND MEMBERS OF THE SULLIVAN COUNTY COURT,
BLOUNTVILLE, TENNESSEE

Ladies and Gentlemen,

I present to you a quarterly report of the combined activities of your Sheriff's Department, for the quarter of April, May and June 1978.

During this quarter the incident rate for burglaries is down which we attribute to more adequate patrolling of the county.

The combined clearance rate for all Part I offenses is over 70% which is substantially above the national average.

Training of the officers at the Sheriff's Department has been a major project this quarter. A forty hour in-service school was held in Blountville with patrol personnel attending. Firearms training was held at E.T.S.U. with all officers at the Sheriff's Department attending.

A workhouse crew is now working along the county road, removing rubbish and brush.

If you have a problem area in your district please contact my office and we will schedule the workhouse crew to work these areas.

This report is

RESPECTFULLY SUBMITTED,

Mike Gardner

Agricultural Work Area

In April, Sullivan County initiated a new Energy Extension Program working with rural residents and small farm operators. Tennessee was one of ten states selected to participate in a pilot energy program funded by the Department of Energy. In addition to Sullivan County, Henry and Davidson counties were selected to participate in this pilot program.

The three programs assistants employed in Sullivan County have made 177 individual contacts in an effort to teach energy conservation. In addition to these visits, educational information has been presented by use of television, radio, newspapers and at group meetings to make the public aware of the availability of the program. A demonstration is being planned with a local dairyman to show the energy savings possible by using a heat recovery system to remove heat from the milk and heat water for future use in the milking parlor.

The programs assistants feel that checking insulation, caulking and weather stripping in homes is important from an energy savings as well as comfort standpoint.

The main objective of this pilot program is to reach as many people as possible with practical energy saving ideas for their homes and farming operations.

The Sullivan County Extension Service in cooperation with the University of Tennessee and Mrs. Lawrence Earhart of Bluff City, is conducting a Pasture Renovation and Fertilization Demonstration. The two acre plot is located at the intersection of Highway 37 and Univac Road. The demonstration shows four different means of pasture renovation with one unimproved area set aside as a check plot. From these areas, eight-sixteen square foot plots were measured and harvested to determine the increased yield over a non-fertilized, non-renovated check plot. Forage samples were dried and weighed and a representative sample taken and sent to University of Tennessee's forage testing laboratory for analysis. Although the results have not yet been received from the laboratory on nutrient value the yield results were significantly different. On renovated and fertilized pasture, the average yield per acre per plot was 3500 pounds. The test plot showed a yield of only 1600 pounds. Proper fertilization and renovation showed two times the yield. Results from the forage testing laboratory should show further positive evidence for using recommended renovation and fertilization practices.

Beef cattle producers have been encouraged to rid their animals of internal and external parasites and to vaccinate for disease prevention. Also, to maximize the pounds of calves sold by producers, implanting of nursing calves has been encouraged. Marketing through the organized feeder calf sales has also been recommended by extension agents working with many of Sullivan County beef producers. In addition, Sullivan County Extension Service has been assisting beef producers in herd sire selection, freeze branding, Tennessee Beef Cattle Improvement Programs records, implanting, ear tagging, vaccination, castration, weighing and grading.

During the past quarter, the Sullivan County Agricultural Extension agents have continued to work with the on going programs and have given assistant to individual home owners and agricultural producers with specific problems on request.

Home Economics Work Area

The semi annual meeting of the Home Demonstration Club council was held for program planning into the fall.

The season for food preservation, as usual, is bringing many questions, requests for testing pressure canner gauges, etc. Classes were held for the adult education program in Bristol for homemakers interested in learning approved - up-to-date methods in canning and freezing.

Since spring and summer provides so many flowers and plants that can be dried and used effectively in home decorating classes were presented in selecting, drying, mounting and framing of pressed and dried flowers. The classes in turn are presented to local clubs, giving more women the benefit of the initial training.

Programs were presented to various groups on "Food Facts and Fallacies". This program deals primarily with truths in meat buying and preparation - more important now than ever, with skyrocketing meat prices.

An interesting experiment was held in a grocery store whereby a homemaker's basket of food was checked at the check-out stand. Then we took the selected items, went back through the store to purchase the same type of food with cost and food values for money spent in mind. We found some very careful shoppers we couldn't improve on, others we could save money for.

Sometime was devoted to "In-Service-Training" at the University as well as the Extension Conference.

A quilting and general needlework exhibit was held giving interested homemakers ideas for related household articles. Quilt patterns and others were available for sharing. Another workshop was held for macrame handbags.

Home Demonstration club members participated in the annual spring county wide meeting. There was also a tour of the greenhouses and plant science laboratories at the University.

For women who cannot attend day classes evening workshops were held in drapery construction. Approximately 20 sample draperies were completed.

We're trying to put a stronger emphasis on family living and personal relationships, thus many of the weekly news columns and radio programs were related to this subject. A TV program showing a "Learning Cube" for pre-schoolers was presented. The cube teaches manual dexterity, color, shape, etc.

In preparation for future emphasis on renovating furniture we have been learning chair caning.

4-H and Other Youth Work Area

The State 4-H Congress was held in Nashville, April 2 - 5. Five 4-H delegates, one adult 4-H leader and one assistant extension agent attended from Sullivan County.

The County 4-H Breadbaking Contest held during April involved fifty-one 4-H members.

Twenty-six 4-H clubs prepared exhibits for the 4-H Mall Exhibit held at the Fort Henry Mall in Kingsport.

The livestock group held a Grooming Demonstration for Beef Heifers and Steers in April to prepare for the County and Bristol Steer and Heifer Shows. There were twenty-three 4-H members present.

The Sullivan County 4-H Steer and Heifer show was held April 29 at Steadman Angus Farm. There were twenty-eight exhibitors in the Steer Show and ten exhibitors in the Heifer show. The number of animals shown were 44 steers and 13 heifers.

The Bristol Steer and Heifer Show was held May 10 at the Tri-State Livestock Market in Abingdon, Virginia. There were twenty-eight exhibitors in the Steer Show and ten exhibitors in the Heifer Show. The number of animals shown were 43 steers and 13 heifers.

The Bristol Steer Carcass Show was held on May 15 at Valleydale Packers, Inc. in Bristol, Virginia. Forty-three steer carcasses were judged and Sullivan County had 4 of the top 10 places.

Five new members were initiated into the Sullivan County 4-H Honor Club.

Eighty-four 4-H'ers throughout the county participated in the County Demonstration Day on May 20. Extension Agents working with 4-H held several record book workshops and a demonstration workshop to assist participants. Sullivan County had eighteen junior county winners to participate in the district contest with nine of these being named district winners. Nineteen junior high 4-H'ers competed at the district level with five of these district winners along with six district alternate winners. Six senior 4-H'ers were district winners and two were named alternate winners.

In promotion of June as Dairy Month, thirty-two 4-H'ers participated in the County Dairy Tasting Party on June 10 and twenty-two 4-H'ers entered the County Dairy Poster Contest.

Three 4-H'ers were initiated into the District V All Stars, two 4-H'ers attended the Fontana Natural Resources Conference and five attended District V Leadership Conference.

The Sullivan County Sheep project has grown from last year's numbers. This year we have 12 lambs with 10 project members. Five of the members are urban 4-H'ers. During the months of May and June the lambs were sheared

and trained by the 4-H members. A sheep workshop was held where halters were made and important dates were gone over.

Several training sessions and a tour of Farmbest have been conducted for members of the 4-H Dairy Products Judging Team.

Twenty-two girls attended 4-H Camp during the last week of June.

A County 4-H Washington, D. C. tour was conducted with thirty-three outstanding 4-H members selected to attend.

RE: Quarterly Report to Sullivan
 County Court; April 1, 1978
 through June 30, 1978

Dear Squires:

This will be our last quarterly report to some of you as you chose not to run for reelection. To those of you who will not be here after September, we wish you well. We in the Purchasing Department have enjoyed working with you. If we may be of assistance to you in the future do not hesitate to let us know.

I would like to introduce to you a new member of our staff. She is Mrs. Charlotte Woody who comes to us from the state of Pennsylvania. Mrs. Woody resides in the Blountville area with her family where they have been for about eight years. Her husband is employed by Tennessee Eastman. Mrs. Woody is a recent graduate of the Tri-City Technical-Vocational School where she took Office Occupations (Secretary, General) courses. Her Evaluation of Training was E - Excellent. Mrs. Woody is replacing Mrs. Metzler who left our office to join her husband who was transferred to DeKalb, Illinois.

I would like to mention that our Assistant Purchasing Agent, Mrs. Betty Ramsey, has recently been selected by the Editorial Board of the American Biographical Institute for the award of Personalities of the South in recognition of her outstanding services to community and state. Also, on April 18, 1978, Mrs. Ramsey was appointed by Tennessee Public Service Commissioner Bob Clement to serve on the Tennessee Consumer Panel for Sullivan County, Tennessee.

The inventory of stock in the Print Shop has been compiled for this fiscal year. The total dollar amount of stock on hand is \$13,707.34. We might mention that we are very proud of our Pressman, Carl Powell, and his apprentice, David Middleton. They are doing a fine job. We invite all of you to go by the Print Shop and observe their operation.

The inventory records for Central Stores and Office Stores is listed in the following report under Central Stores.

Squires

Page 2

July 12, 1978

I am pleased to announce once again that a NEW RECORD has been set in the Purchasing Department. During this past quarter, we have processed a total of 2,483 purchase orders. This is a total of 200 more purchase orders processed than our last record number which was 2,283. Bear in mind that this would not have been possible without the cooperation of the employees in Accounts & Budgets as they process every order that we process.

For your information, we are now purchasing such items as typewriters, calculators, etc. on state contracts. This allows us to purchase name brand, quality items at minimum costs. Needless to say, this eliminates the cost of advertising for bids.

Squires, the following report is self-explanatory. If, however, there is anything you do not understand, just let us know. We welcome the opportunity to discuss with you what is involved in Purchasing and invite each of you to come visit us in our office. Our door is always open and our records are public.

Respectfully yours,

Tommy Lee Hulse

Section 7. For the purpose of providing funds with which to pay the interest accruing on said bonds and the principal thereof at maturity there shall be and there is hereby levied upon all taxable property in the County, in addition to all other taxes, a direct annual tax for each of the years while said bonds or any of them, shall be outstanding, in amounts sufficient for that purpose. Principal or interest coming due at any time when there are insufficient funds on hand to pay the same shall be promptly paid when due from the general fund or other available funds of said county and reimbursement shall be made to said fund or funds in the amount of the sums thus advanced when taxes provided for that purpose shall have been collected.

Section 8. The bonds herein authorized shall be sold at public sale to the highest bidder by the County Judge in the manner prescribed by Section 49-709, Tennessee Code Annotated. Said bonds may be sold as a whole, or in part from time to time as may be determined by said official. None of said bonds shall be sold for less than par and accrued interest to date of delivery, provided that the necessary expense in the issuance and sale of said bonds shall be paid from the proceeds of the sale. The action of the County Judge in consummating such sale or sales and fixing the interest rate or rates on the bonds in accordance with this resolution and the bid accepted shall be binding on the County and this Quarterly County Court, and no further action shall be necessary in relation thereto.

Notice of any such sale shall be published in The Bond Buyer, a financial newspaper published in New York, New York and in a newspaper published in and having general circulation in the County.

Section 9. The bonds shall be printed and executed as soon as may be after the sale thereof and thereupon shall be delivered to the purchasers thereof upon receipt by the County Trustee of the County of the agreed purchase price. The proceeds of the sale of the bonds shall be turned over to the County Trustee of the County and shall be paid out for the purposes and in the manner required by law and this resolution. The Quarterly County Court represents and certifies that:

(1) the County has heretofore incurred (or expects within six months after delivery of the bonds to incur) a substantial binding obligation with respect to said facilities; said binding obligation consisting of a binding obligation to third parties for such items as architects' or engineers' fees, land acquisition costs or site development, in the amount of not less than 2-1/2% of the estimated total cost of said facilities;

(2) the Quarterly County Court expects that over 85% of the spendable proceeds of the bonds (including investment proceeds) will be expended on or before August 1, 1981, for the purpose of paying the cost of said facilities, said date being within three years following the date of issue of the bonds;

(3) work on the said facilities is expected to proceed with due diligence to completion;

(4) said facilities have not been and are not expected to be sold or otherwise disposed of in whole or in part prior to the last maturity of said bonds;

(5) all of the principal proceeds of the bonds are needed for the purpose stated in the form of bond above set out, including expenses incidental to such purpose and to the issuance of the bonds; and

(6) to the best of the knowledge and belief of the Quarterly County Court there are no facts, estimates or circumstances that would materially change the conclusions and representations set out in this section.

The Quarterly County Court also certifies and further covenants with the purchasers and holders of the bonds from time to time outstanding that so long as any of the bonds remain outstanding, moneys on deposit in any fund or account in connection with the bonds, whether or not such moneys were derived from the proceeds of the sale of the bonds or from any other source, will not be used in a manner which will cause the bonds to be "arbitrage bonds" within the meaning of Section 103(c) of the Internal Revenue Code of 1954, as amended, and any lawful regulations promulgated or proposed thereunder, including Sections 1.103-13 and 1.103-14 of the Income Tax Regulations (26 CFR Part 1), as the same presently exist or may from time to time hereafter be amended, supplemented or revised. The Quarterly County Court reserves the right, however, to make any investment of such moneys permitted by state law if, when and to the extent that said Section 103(c) or regulations promulgated thereunder shall be repealed or relaxed or shall be held void by final decision of a court of competent jurisdiction.

Section 10. If any section, clause or provision of this resolution shall be held to be invalid or ineffective for any reason, the remainder of this resolution shall remain in full force and effect, it being expressly hereby found and declared that the remainder of this resolution would have been adopted by this Quarterly County Court despite the invalidity of such section, paragraph, clause or provision.

Section 11. It is recognized that because of constitutional amendment and implementing legislation certain changes in county government will become effective as of September 1, 1978. To that end the respective successors to the Quarterly County Court, the County Judge and the County Court Clerk shall, after such date, perform all duties of such officers and such body hereunder.

Section 12. All orders or resolutions in conflict herewith be and the same are hereby repealed insofar as such conflict exists, and this resolution shall take effect immediately upon its passage, the public welfare requiring it.

Section 6. For the purpose of providing funds with which to pay the interest accruing on said bonds and the principal thereof at maturity there shall be and there is hereby levied upon all taxable property in the County lying outside the territorial limits of the Cities of Bristol and Kingsport, in addition to all other taxes, a direct annual tax for each of the years while said bonds or any of them, shall be outstanding, in amounts sufficient for that purpose. Section 7. The bonds herein authorized shall be sold at public sale to the highest bidder by the County Judge in the manner prescribed by Section 49-709, Tennessee Code Annotated. Said bonds may be sold as a whole, or in part from time to time as may be determined by said official. None of said bonds shall be sold for less than par and accrued interest to date of delivery, provided that the necessary expense in the issuance and sale of said bonds shall be paid from the proceeds of the sale. The action of the County Judge in consummating such sale or sales and fixing the interest rate or rates on the bonds in accordance with this resolution and the bid accepted shall be binding on the County and this Quarterly County Court, and no further action shall be necessary in relation thereto.

Notice of any such sale shall be published in The Bond Buyer, a financial newspaper published in New York, New York and in a newspaper published in and having general circulation in the County.

Section 8. The bonds shall be printed and executed as soon as may be after the sale thereof and thereupon shall be delivered to the purchasers thereof upon receipt by the County Trustee of the County of the agreed purchase price. The proceeds of the sale of the bonds shall be turned over to the County Trustee of the County and shall be paid out for the purposes and in the manner required by law and this resolution. The Quarterly County Court represents and certifies that:

(1) the County has heretofore incurred (or expects within six months after delivery of the bonds to incur) a substantial binding obligation with respect to said facilities; said binding obligation consisting of a binding obligation to third parties for such items as architects' or engineers' fees, land acquisition costs or site development, in the amount of not less than 2-1/2% of the estimated total cost of said facilities;

(2) the Quarterly County Court expects that over 85% of the spendable proceeds of the bonds (including investment proceeds) will be expended on or before August 1, 1981, for the purpose of paying the cost of said facilities, said date being within three years following the date of issue of the bonds;

(3) work on the said facilities is expected to proceed with due diligence to completion;

(4) said facilities have not been and are not expected to be sold or otherwise disposed of in whole or in part prior to the last maturity of said bonds;

(5) all of the principal proceeds of the bonds are needed for the purpose stated in the form of bond above set out, including expenses incidental to such purpose and to the issuance of the bonds; and

(6) to the best of the knowledge and belief of the Quarterly County Court there are no facts, estimates or circumstances that would materially change the conclusions and representations set out in this section.

The Quarterly County Court also certifies and further covenants with the purchasers and holders of the bonds from time to time outstanding that so long as any of the bonds remain outstanding, moneys on deposit in any fund or account in connection with the bonds, whether or not such moneys were derived from the proceeds of the sale of the bonds or from any other source, will not be used in a manner which will cause the bonds to be "arbitrage bonds" within the meaning of Section 103(c) of the Internal Revenue Code of 1954, as amended, and any lawful regulations promulgated or proposed thereunder, including Sections 1.103-13 and 1.103-14 of the Income Tax Regulations (26 CFR Part 1), as the same presently exist, or may from time to time hereafter be amended, supplemented or revised. The Quarterly County Court reserves the right, however, to make any investment of such moneys permitted by state law if, when and to the extent that said Section 103(c) or regulations promulgated thereunder shall be repealed or relaxed or shall be held void by final decision of a court of competent jurisdiction.

Section 9. If any section, paragraph, clause or provision of this resolution shall be held to be invalid or ineffective for any reason, the remainder of this resolution shall remain in full force and effect, it being expressly hereby found and declared that the remainder of this resolution would have been adopted by this Quarterly County Court despite the invalidity of such section, paragraph, clause or provision.

Section 10. It is recognized that because of constitutional amendment and implementing legislation certain changes in county government will become effective as of September 1, 1978. To that end the respective successors to the Quarterly County Court, the County Judge and the County Court Clerk shall, after such date, perform all duties of such officers and such body hereunder.

Section 11. All orders or resolutions in conflict herewith be and the same are hereby repealed insofar as such conflict exists, and this resolution shall take effect immediately upon its passage, the public welfare requiring it.

Section 7. For the purpose of providing funds with which to pay the interest accruing on said bonds and the principal thereof at maturity there shall be and there is hereby levied upon all taxable property in the County, in addition to all other taxes, a direct annual tax for each of the years while said bonds or any of them, shall be outstanding, in amounts sufficient for that purpose. Principal or interest coming due at any time when there are insufficient funds on hand to pay the same shall be promptly paid when due from the general fund or other available funds of said county and reimbursement shall be made to said fund or funds in the amount of the sums thus advanced when taxes provided for that purpose shall have been collected.

Section 8. The bonds herein authorized shall be sold at public sale to the highest bidder by the County Judge in the manner prescribed by Section 49-709, Tennessee Code Annotated. Said bonds may be sold as a whole, or in part from time to time as may be determined by said official. None of said bonds shall be sold for less than par and accrued interest to date of delivery, provided that the necessary expense in the issuance and sale of said bonds shall be paid from the proceeds of the sale. The action of the County Judge in consummating such sale or sales and fixing the interest rate or rates on the bonds in accordance with this resolution and the bid accepted shall be binding on the County and this Quarterly County Court, and no further action shall be necessary in relation thereto.

Notice of any such sale shall be published in The Bond Buyer, a financial newspaper published in New York, New York and in a newspaper published in and having general circulation in the County.

Section 9. The bonds shall be printed and executed as soon as may be after the sale thereof and thereupon shall be delivered to the purchasers thereof upon receipt by the County Trustee of the County of the agreed purchase price. The proceeds of the sale of the bonds shall be turned over to the County Trustee of the County and shall be paid out for the purposes and in the manner required by law and this resolution. The Quarterly County Court represents and certifies that:

(1) the County has heretofore incurred (or expects within six months after delivery of the bonds to incur) a substantial binding obligation with respect to said facilities; said binding obligation consisting of a binding obligation to third parties for such items as architects' or engineers' fees, land acquisition costs or site development, in the amount of not less than 2-1/2% of the estimated total cost of said facilities;

(2) the Quarterly County Court expects that over 85% of the spendable proceeds of the bonds (including investment proceeds) will be expended on or before August 1, 1981, for the purpose of paying the cost of said facilities, said date being within three years following the date of issue of the bonds;

(3) work on the said facilities is expected to proceed with due diligence to completion;

(4) said facilities have not been and are not expected to be sold or otherwise disposed of in whole or in part prior to the last maturity of said bonds;

(5) all of the principal proceeds of the bonds are needed for the purpose stated in the form of bond above set out, including expenses incidental to such purpose and to the issuance of the bonds; and

(6) to the best of the knowledge and belief of the Quarterly County Court there are no facts, estimates or circumstances that would materially change the conclusions and representations set out in this section.

The Quarterly County Court also certifies and further covenants with the purchasers and holders of the bonds from time to time outstanding that so long as any of the bonds remain outstanding, moneys on deposit in any fund or account in connection with the bonds, whether or not such moneys were derived from the proceeds of the sale of the bonds or from any other source, will not be used in a manner which will cause the bonds to be "arbitrage bonds" within the meaning of Section 103(c) of the Internal Revenue Code of 1954, as amended, and any lawful regulations promulgated or proposed thereunder, including Sections 1.103-13 and 1.103-14 of the Income Tax Regulations (26 CFR Part 1), as the same presently exist or may from time to time hereafter be amended, supplemented or revised. The Quarterly County Court reserves the right, however, to make any investment of such moneys permitted by state law if, when and to the extent that said Section 103(c) or regulations promulgated thereunder shall be repealed or relaxed or shall be held void by final decision of a court of competent jurisdiction.

Section 10. If any section, clause or provision of this resolution shall be held to be invalid or ineffective for any reason, the remainder of this resolution shall remain in full force and effect, it being expressly hereby found and declared that the remainder of this resolution would have been adopted by this Quarterly County Court despite the invalidity of such section, paragraph, clause or provision.

Section 11. It is recognized that because of constitutional amendment and implementing legislation certain changes in county government will become effective as of September 1, 1978. To that end the respective successors to the Quarterly County Court, the County Judge and the County Court Clerk shall, after such date, perform all duties of such officers and such body hereunder.

Section 12. All orders or resolutions in conflict herewith be and the same are hereby repealed insofar as such conflict exists, and this resolution shall take effect immediately upon its passage, the public welfare requiring it.

Adopted and approved July 19, 1978.

Section 7. For the purpose of providing funds with which to pay the interest accruing on said bonds and the principal thereof at maturity there shall be and there is hereby levied upon all taxable property in the County lying outside the territorial limits of the Cities of Bristol and Kingsport, in addition to all other taxes, a direct annual tax for each of the years while said bonds or any of them, shall be outstanding, in amounts sufficient for that purpose. Principal or interest coming due at any time when there are insufficient funds on hand to pay the same shall be promptly paid when due from the general fund or other available funds of said county and reimbursement shall be made to said fund or funds in the amount of the sums thus advanced when taxes provided for that purpose shall have been collected.

Section 8. The bonds herein authorized shall be sold at public sale to the highest bidder by the County Judge in the manner prescribed by Section 49-709, Tennessee Code Annotated. Said bonds may be sold as a whole, or in part from time to time as may be determined by said official. None of said bonds shall be sold for less than par and accrued interest to date of delivery, provided that the necessary expense in the issuance and sale of said bonds shall be paid from the proceeds of the sale. The action of the County Judge in consummating such sale or sales and fixing the interest rate or rates on the bonds in accordance with this resolution and the bid accepted shall be binding on the County and this Quarterly County Court, and no further action shall be necessary in relation thereto.

Notice of any such sale shall be published in The Bond Buyer, a financial newspaper published in New York, New York and in a newspaper published in and having general circulation in the County.

Section 9. The bonds shall be printed and executed as soon as may be after the sale thereof and thereupon shall be delivered to the purchasers thereof upon receipt by the County Trustee of the County of the agreed purchase price. The proceeds of the sale of the bonds shall be turned over to the County Trustee of the County and shall be paid out for the purposes and in the manner required by law and this resolution. The Quarterly County Court represents and certifies that:

- (1) the County has heretofore incurred (or expects within six months after delivery of the bonds to incur) a substantial binding obligation with respect to said facilities; said binding obligation consisting of a binding obligation to third parties for such items as architects' or engineers' fees, land acquisition costs or site development, in the amount of not less than 2-1/2% of the estimated total cost of said facilities;

(2) the Quarterly County Court expects that over 85% of the spendable proceeds of the bonds (including investment proceeds) will be expended on or before June 1, 1981, for the purpose of paying the cost of said facilities, said date being within three years following the date of issue of the bonds;

(3) work on the said facilities is expected to proceed with due diligence to completion;

(4) said facilities have not been and are not expected to be sold or otherwise disposed of in whole or in part prior to the last maturity of said bonds;

(5) all of the principal proceeds of the bonds are needed for the purposes stated in the form of bond above set out, including expenses incidental to such purposes and to the issuance of the bonds; and

(6) to the best of the knowledge and belief of the Quarterly County Court there are no facts, estimates or circumstances that would materially change the conclusions and representations set out in this section.

The Quarterly County Court also certifies and further covenants with the purchasers and holders of the bonds from time to time outstanding that so long as any of the bonds remain outstanding, moneys on deposit in any fund or account in connection with the bonds, whether or not such moneys were derived from the proceeds of the sale of the bonds or from any other source, will not be used in a manner which will cause the bonds to be "arbitrage bonds" within the meaning of Section 103(c) of the Internal Revenue Code of 1954, as amended, and any lawful regulations promulgated or proposed thereunder, including Sections 1.103-13 and 1.103-14 of the Income Tax Regulations (26 CFR Part 1), as the same presently exists or may from time to time hereafter be amended, supplemented or revised. The Quarterly County Court reserves the right, however, to make any investment of such moneys permitted by state law if, when and to the extent that said Section 103(c) or regulations promulgated thereunder shall be repealed or relaxed or shall be held void by final decision of a court of competent jurisdiction.

Section 10. If any section, paragraph, clause or provision of this resolution shall be held to be invalid or ineffective for any reason, the remainder of this resolution shall remain in full force and effect, it being expressly hereby found and declared that the remainder of this resolution would have been adopted by this Quarterly County Court despite the invalidity of such section, paragraph, clause or provision.

0152

Section 11. It is recognized that because of constitutional amendment and implementing legislation certain changes in county government will become effective as of September 1, 1978. To that end the respective successors to the Quarterly County Court, the County Judge and the County Court Clerk shall, after such date, perform all duties of such officers and such body hereunder.
